

## Maximising the power of odour neutralisation...

Take PowAir products to the next level. Designed to maximise the efficacy of our products, our dispensers are great for larger scale domestic rooms and commercial spaces of all sizes.

### PowAir Breeze Fan

The PowAir Breeze Fan is built to maximise the efficacy of PowAir Gel products being used in larger environments.

Use with 732g jar and 3.8kg pail. Includes high and low speed options for high and moderate intensity odours.

### PowAir Cyclone Fan

Just like the Breeze Fan, The PowAir Cyclone Fan maximises the efficacy of PowAir Gel products being used in larger environments.

Use with 20kg pail. Uses less power than a light bulb to provide odour control for up to 465 square metres.

### PowAir Block Dispenser

Draw out the maximum potential of your PowAir Blocks using the PowAir Block Dispenser. Can stand alone or be fixed to a wall around your chosen environment.

Can be bought individually or as part of a bundle. See online for more information. Requires 2 x AA batteries.

## Natural Odour Neutraliser, for everyday life...

PowAir is a safe natural odour neutraliser; designed to completely eliminate odours whenever, and wherever they may arise!

Using natural essential oil technology; we have eliminated the need for harsh chemicals, alcohol and other toxic ingredients.

Available in a variety of sizes & formats, with three tempting fragrances to choose from - Apple Crumble, Passion Fruit & Tropical Breeze. Which one will you choose?

### Why PowAir?

Not to be confused with air fresheners, PowAir is a true odour neutraliser meaning odours are eliminated at the source and not temporarily masked. We boast a natural range that attacks, neutralises and destroys a wide spectrum of organic and non-organic odours, both at home and in the workplace.
